

# RECOMMENDED SPARE PARTS & CONSUMABLES

## aPLI

Having a variety of aPLI spare parts on hand for quick replacement during an ATD certification or a crash test series is an affordable and efficient way to help manage unexpected needs and regular maintenance requirements.

### Importance of ATD Spare Part Inventory

Accidents happen. And within vehicle safety test facilities, they happen on purpose! So there's nothing more frustrating than lacking a critical replacement part for a test dummy that's scheduled for a required re-certification or needed immediately for a crucial test series.

Some of the components that bare the brunt of physical impact and abuse are critical items to have on-hand for quick

replacement when damaged or worn-out. Many test dummy spares have delivery lead times that could delay your testing if you don't have them available in your local inventory.

To help with your inventory planning, we've put together a list of the most common and consumable components to have readily available for regular and emergency use.

### Recommended aPLI Spare Parts

ITEM #	PART NUMBER	DESCRIPTION	QTY
