#### **CALIBRATION**

Valid To: September 30, 2026

Certificate Number: 2421.03

In recognition of the successful completion of the A2LA evaluation process (including an assessment of the organization's compliance with A2LA's Calibration Program Requirements), accreditation is granted to this laboratory to perform the following calibrations<sup>1, 4</sup>:

#### I. Mechanical

Parameter/Equipment	Range	CMC <sup>2, 3</sup> (±)	Comments
Rotary Displacement Transducer	+/- 180 °	0.002 % F.S.	CL-PR-00025C

<sup>&</sup>lt;sup>1</sup> This laboratory offers commercial calibration service.

<sup>&</sup>lt;sup>2</sup> Calibration and Measurement Capability Uncertainty (CMC) is the smallest uncertainty of measurement that a laboratory can achieve within its scope of accreditation when performing more or less routine calibrations of nearly ideal measurement standards or nearly ideal measuring equipment. CMCs represent expanded uncertainties expressed at approximately the 95 % level of confidence, usually using a coverage factor of k = 2. The actual measurement uncertainty of a specific calibration performed by the laboratory may be greater than the CMC due to the behavior of the customer's device and to influences from the circumstances of the specific calibration.

<sup>&</sup>lt;sup>3</sup> In the statement of CMC, F.S. represents "Full Scale".

<sup>&</sup>lt;sup>4</sup> This scope meets A2LA's *P112 Flexible Scope Policy*.

for technical competence in the field of

### Calibration

This laboratory is accredited in accordance with the recognized International Standard ISO/IEC 17025:2017

General requirements for the competence of testing and calibration laboratories. This laboratory also meets the requirements of ANSI/NCSL Z540-1-1994 and R205 – Specific Requirements: Calibration Laboratory Accreditation Program. This accreditation demonstrates technical competence for a defined scope and the operation of a laboratory quality management system (refer to joint ISO-ILAC-IAF Communiqué dated April 2017).

Presented this 12th day of November 2024.

Mr. Trace McInturff Vice President, Accreditation Services For the Accreditation Council

Certificate Number 2421.03

Valid to September 30, 2026

Revised July 15, 2025

For the calibrations to which this accreditation applies, please refer to the laboratory's Calibration Scope of Accreditation.
